Lesson for May 31

PETER AT LYDDA AND JOPPA

LESSON TEXT—Acts 9:22-43.
GOLDEN TEXT—And they went forth and preached everywhere, the Lord working with them, and confirming the word with signs following.—Mark 16:20.
PRIMARY TOPIC—Two Wonderful Things That Peter Did.
JUNIOR TOPIC—The Story of Two Miracles.
INTERMEDIATE AND SENIOR TOPIC—Two Great Miracles.
YOUNG PEOPLE AND ADULT TOPIC—The Place of Miracles in the Spread of the Gospel.

In order to grasp the significance of this lesson, we should recall the condition which prevailed in the church as suggested in verse 31.

1. Freedom From Persecution.

Saul, the ringleader of the persecutors, had only recently been converted, thereby disorganizing their forces and causing the church to enjoy a breathing spell. This period of rest was not used for growing lazy, indifferent, worldly and forgetful of God, but for growth in grace and in the knowledge of the Lord Jesus Christ.

2. Spiritual Growth and Development.

Most blessed will be the results following the times of outward peace if the members of the church will but spend time in building it up. The highway of the soul, of the word, "edified" is built up. This does not mean merely that the members were being instructed and comforted, but that strenuous effort on the part of individual members, as well as the body as a whole, were being made for the advancement of the divine life. As suggested by another, this metaphor involves:

(1) A Foundation. This is Jesus Christ. No other must be laid (1 Cor. 3:12-16).

(2) Continuous progress. This means that a Christian's activities are purposeful, and that the work he undertakes moves forward with the proper progression.

(3) Persistent effort. This means that the present day's work begins the foundation upon which tomorrow's work must be built. Thus day by day his life is being raised higher and higher as each separate round of material is being laid by strenuous efforts.

(4) Completion. Finally the work is done. The building is completed; the top stone is brought forth and placed.

3. Outward Growth.

Building up within the church causes the whole work to be admired and respected by those without, leading them to come and identify themselves with it.

I. Peter's Tour Among the Saints (v. 32).

This resulted in securing new converts.

II. Two Stupendous Miracles (vv. 32-43).

These were the greatest signs wrought since the days of Christ. The dreadful malady of palsy is vanquished, and a corpse is entombed by the departed soul. The Lord had promised these signs as they went forth with the gospel message. They were given as encouragements to the disciples to convince them that the gospel did not lose any of its power by being spread, but rather it increased in power.

1. The Healing of Aeneas (v. 32-35). This man's needy condition appealed to Peter just as men today should appeal to us in their soul-dead state. But the Master Peter could not raise the needed help. In this he does not direct attention to himself, but confidently appeals to the power in the name of Christ. He said, "Jesus Christ healeth thee." The man who had kept his bed for eight long years immediately arose and made his bed. Peter wisely kept this miracle from being the end by making it the means to the end—that end was the preaching of the gospel.

2. The Raising of Dorcas (vv. 36-43).

This woman was full of good works and almsdeeds which she "did," not what she talked of doing. She was a practical Christian woman. Her death was a real loss as was evidenced by the mourning of those who had been helped. If all professing Christian women would use their needles as Dorcas did there would be much less of that restless fancywork done. When this good woman fell sick and died, the disciples sent for Peter. This shows their growth in faith in the Divine power. Peter again imitated the example of Jesus in putting them all forth. At his command her soul came back to live in her body. This again caused the people to believe on the Lord.

In God's Purpose

In no case does origin determine value. From the religious point of view, the dignity and worth of man in any case in God's purpose concerning him, and that purpose is not affected by the particular method of his working.—Henry Churchill King.

Facts About the Tobacco Growers Cooperative Association

Number 3—EXPENSES

Opponents of cooperative marketing have claimed wild extravagance on the part of the management of the Tobacco Association.

The directors of extension, chiefs of marketing bureaus, commissioners of agriculture and editors of farm journals from the Carolinas and Virginia, in reporting on the Tobacco Growers Cooperative Association, state:

"As stated above, there has undoubtedly been considerable extravagance in getting such a big organization under way, but the committee has gone over the expenses of the operation very carefully and finds that for 1922 the total cost of all salaries, labor and traveling expense amounted to approximately $1.20 per hundred pounds, while in 1923 the total cost of salaries, labor and traveling expenses amounted to 97 cents per hundred pounds, showing that these items were materially reduced as time went on. Further reductions were put into operation during 1924, and the budget for the coming year shows still further reductions.

"The investigations of the committee have shown that, to date, payments on warehouses have been made promptly by the Association, and at the present time more than half of the purchase price of these warehouses has been paid. The warehouses will be owned entirely by members of the Association at the end of the present five-year contract."
